About the training
All of the courses listed in this programme are delivered in a multi-agency setting. This provides participants with the opportunity to share their experience, skills and knowledge and learn about other agencies’ roles, responsibilities and limitations in relation to the topics covered.

Please note: due to the multi-agency nature of these courses, we can only accept a maximum of three people from the same agency on each session. If you would like to train a larger group of staff in one session, please contact Joanne Douglas to discuss cost and requirements.

All of the courses are delivered using various training methods including small group work, DVDs, PowerPoint presentation, trainer led inputs, skills practice and case studies. The training is highly interactive and based upon current best practice and evidence of what works well in response to domestic violence and abuse.

Content warning
Please be aware that this training programme deals with potentially emotive subjects. The content and materials used may be upsetting to anyone who has been personally affected by domestic violence and abuse. Information is provided about help lines and local and national support agencies that can be contacted should you feel the need to talk to someone other than your colleagues or manager following attendance on a course.

Single agency training
In addition to these multi-agency training events, Safe Newcastle can provide tailored training to meet your organisation’s specific requirements. There may be a charge for this. For further details of ‘in house’ training opportunities or to discuss your organisation’s requirements and receive a quote please contact Joanne Douglas.

Equal Opportunities
Safe Newcastle is committed to a policy of Equal Opportunities and of valuing and respecting difference and diversity. We aim to provide access to training regardless of a person’s ethnicity, gender, disability, sexual orientation, gender identity, age or religion.
